

BLUE RIBBON AWARD

THOMAS
& FRIENDS

A Busy Day on Sodor

To order replacement batteries for your Blue Ribbon Book, send a check or money order for \$5.99 (U.S.) and your mailing address to Publications International, Ltd., P.O. Box 8093, Department B23, Wisconsin Rapids, Wisconsin 54495-8093. Two sets of three replacement batteries, plus a free screwdriver and replacement screw, will arrive within 4 to 6 weeks. This offer is good only for U.S. mailing addresses.

Instructions for Battery Replacement

A child should never use this product unless the battery compartment cover has been properly secured. Only an adult should replace batteries. Use a Phillips screwdriver to remove the screw. Open the battery compartment cover. Remove old batteries and dispose of immediately. Install new batteries with the plus (+) sign facing up. Close the cover and secure it with the screw. Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries. Do not recharge non-rechargeable batteries. Rechargeable batteries are to be removed from the sound module before being charged. Rechargeable batteries are only to be charged under adult supervision. If batteries are swallowed, in the USA, promptly see a doctor and have the doctor phone (202) 625-3333 collect. In other countries, have the doctor call your local poison control center. This product uses three AG-13 button cell batteries (3 x 1.5V = 4.5V). Use batteries of the same or equivalent type as recommended. The supply terminals are not to be short-circuited. Batteries should be changed when sounds mix, distort, or become otherwise unintelligible as batteries weaken. The electrostatic discharge may interfere with the sound module. If this occurs, please simply restart the sound module.

In the European market the dustbin symbol indicates that batteries, rechargeable batteries, button cells, battery packs, etc. must not be put in the household waste. Batteries containing hazardous substances are harmful to the environment and to health. Please help to protect the environment from health risks and tell your children to dispose of batteries properly and take them to the local collecting points. Batteries are recycled safely in this manner. The chemical symbols Hg (Mercury), Cd (Cadmium) or Pb (Lead) shown on the dustbin symbol indicate that the content of that chemical exceeds a certain limit.

Conforms to the safety requirements of ASTM F963-07.

BLUE RIBBON
AWARD

THOMAS
& FRIENDS

A Busy Day on Sodor

publications international, Ltd.

It's good to be a busy engine!

Thomas is proud to have such Really Useful friends. They are some of the busiest engines on the Island of Sodor.  Today Thomas will visit some of his friends to learn all about different ways to be a busy engine.

Thomas, Annie, and
Clarabel help passengers travel
all over the Island of Sodor.

Sir Topham Hatt keeps Thomas
and all the other engines Right
on Time.

Thomas chugs past Brendam

Docks. Bulstrode has brought freight

from across the sea.  Cranky

helps move the freight from

Bulstrode to Salty.  Salty

will make deliveries around the

island.  What a busy team!

Next Thomas passes by the farm,
where he sees two more busy engines.
Terence the tractor prepares the farmer's
field for planting.  Elizabeth gets
ready to deliver the farmer's crops. 
Terence and Elizabeth always work hard
to make sure the people of Sodor have
plenty to eat.

At Ffarquhar Quarry, Thomas
chugs up alongside two more
engines. Mavis brings coal up
from the quarry.  Toby loads
his cars and hauls the coal all
around Sodor.  They make
sure everyone gets their coal.

Next Thomas puffs by the airport,
where the engines can fly! Harold
circles the sky, watching over the
island.  Jeremy the Jet Plane
goes places that most engines
can't.  Jeremy and the other
engines help each other, and without
them, the passengers would never
leave the airport!

Soon Thomas chuffs into
the countryside. He sees even
more busy engines! Bertie
carries his passengers to their
destinations.

Murdoch hauls heavy
loads all over the Island
of Sodor.  Bertie
and Murdoch both make
important deliveries!

Finally, Thomas returns to Tidmouth Sheds. He peeps good night to each of the Really Useful Engines there. Percy delivers mail to the people on the Island of Sodor.  James hauls coaches and freight cars.  Edward keeps order between all the engines.  Thomas is proud that all his friends do such Really Useful work on the Island of Sodor!

It's good to be a busy engine!
Thomas is proud to have such Really Useful friends. They are some of the busiest engines on the Island of Sodor. Today Thomas will visit some of his friends to learn all about different ways to be a busy engine.

Join Thomas and his friends on a tour of the bustling Island of Sodor, where each engine has a special job to do. It's good to be busy!

Safety tested for children
18months+
Conforms to the safety requirements of ASTM F963-07.

3 replaceable long-life AG-13 button cell batteries included.
Button cell batteries contain mercury.
